

Opportunity – Compassion-Centered Spiritual Health Fellowship Program with Emory Spiritual Health

Emory Spiritual Health is pleased to announce a two (2) year Compassion-Centered Spiritual Health (CCSH) Fellowship program beginning September 3, 2025. CCSH is a research-based method to alleviate distress in patients and families and to mitigate burnout in healthcare professionals including the Spiritual Health Clinician. CCSH™ augments spiritual health education and best practices with CBCT® (Cognitively-Based Compassion Training), a program developed at the Center for Contemplative Science and Compassion-Based Ethics. CCSH Fellows will engage in a developing program to become registered interventionists in CCSH while working toward professional goals in spiritual health disciplines (e.g., Board Certification with APC, and strategic partners). CCSH Fellows will be expected to work approximately 35 hours/week in clinical service in a designated treatment area and will receive approximately 5 hours/week in training in CCSH and consultation toward spiritual health vocational goals. While the application for this fellowship requires 4 units of ACPE CPE, this is a post CPE fellowship where no units of CPE are granted. This unique opportunity allows for specialization in the expanding professional field of Spiritual Health. The goal of this new program is to offer successful participants the opportunity to become CCSH Registered Clinicians.

Minimum Qualifications:

- Completion of master's level of theology or divinity degree, or equivalent standards for educational requirement that meets the Board Certification with APC or its strategic partners.
- Completion of at least four (4) units of CPE from an ACPE accredited program
- Experience in human services or ministry, preferably in a congregation or clinical setting (or experience in parallel professions such as pastoral counseling).
- Functional knowledge of religious principles and practices of the major faiths and open to working with persons of diverse religious and cultural backgrounds.
- Good communication and interpersonal skills.

- Ability to be self-directed and work independently.
- Academic medical center experience preferred.
- Previous health care experience in the spiritual health field required.
- Familiarization with CCSH (i.e., taken CBCT foundation course or viewed CCSH video [<https://youtu.be/torZwUbAtI4>])

Locations for Fellowships are:

1. Winship outpatient Oncology – Clifton
2. Winship outpatient Oncology – Clifton
3. Winship outpatient Oncology – EDOU
4. Winship outpatient Oncology – Northern Arc (EJCH/ESJH/Buford)
